

DEPENDABLE PLUMBING

It's right and stays all right when we fix it. Our estimates when you install new work will get us the contract. After that you will have very little use for a plumber's services, because our work stays right. We are also experts in correcting mistakes of the other fellow. See us when you want dependable plumbing, either the new or repairs.

Why is it that when a man starts looking for a wife he usually spends all his time and energy in trying to find one who is hard to win, rather than in hunting for one who is easy to live with?

BRIDGE TO REMAIN UNMOLESTED AT MOUNDS

CITIZENS PROTEST AGAINST ACTION OF BROWNING.

Some of the Emery County Commissioners Oversee the Fund For Soldiers' Library—Six More Men Ready For Service With Their Uncle Sam's Forces—Personal and Social.

CATTLE DALE, March 3.—The work of dismantling the big bridge over the Price river at Mounds, which was begun some ten days ago on recommendation of State Road Engineer Browning, was stopped last Saturday on orders from the sheriff's office. Victor and other Northern Emery county residents who depend upon the bridge as a means of transporting much of their crops to the railroad having raised a storm of protest. In this they were joined by several big sheepmen who are interested in the bridge largely on account of its proximity to the shearing corral at Mounds. The bridge being located at this point was a big factor in securing the corral, which are understood to be the largest in the West. The bridge was built by legislative appropriation several years ago, the appropriation being secured through the good work of William J. Seely, representative from Emery county at that time, and was used by all the traffic going to Sunnyside before automobiles became so common. Cars can now much better afford to go around by Price than try to negotiate the horrible piece of road in Carbon county lying just beyond the bridge. The bridge has been used quite extensively, however, the presence having made possible the shipment of several carloads of hay and other products which could never have been hauled to any other rail point than Mounds except to the disadvantage. The river is very dangerous at this point during high water season, several teams having been lost while drivers only escaped with their lives. Considerable work was done on this bridge by Victor people at the time of its erection, but they are willing and anxious to help out again and one-fourth of the work of rebuilding the bridge will be borne by them. Another fourth will be borne by the sheepmen, J. C. Jensen having signed up for them, while the county will stand the remaining half of the expense. Mart Jensen, county road supervisor, is now at work there. It is thought that five or six hundred dollars will cover the cost of rebuilding. If Carbon county refuses still to do anything on the short stretch of road connecting the bridge with the main road to Sunnyside, some other means will have to be devised. That the bridge will remain to do service for many years to come is due to a delegation of Victor boosters who presented their arguments in a convincing way at Monday's meeting of the county commissioners. The delegation was composed of J. W. Warr, N. E. Jensen, H. G. Mills, Samuel Wells, William Hilling, Raymond Wells and Thomas B. Wells.

Six More Men Pass.
Six more Class I men were successful in passing the physical examination prescribed for army service under the draft law, the examinations being given this afternoon. Two of them, however, were accepted for limited service only. All the men examined are classification reversals made by the district board, in most cases being men who have married since May 18th, all such cases being automatically challenged and decided by the state board. Passed for general service, L. Earl Acord, W. Oscar Mahers, Alvin Richardson and J. C. Ralphs. For limited service, Cliff Pettey and Nick Anderson. Failed to pass, Francis Hansen, Leon P. Ralphs, David G. Nordell, W. Fred Fall, Peter Peterson, Wayne Blackburn and Robert P. Behnam. Macleod Kilpatrick and Ira Oviatt, two more of Emery county Class I boys who are attending school at Logan, have taken the examination there and stand accepted for service.

Forest reserve funds to the amount of \$1878.66 was apportioned by the county commissioners last Monday, half to the county road fund and half to the school district. George H. Oviatt was appointed deputy road supervisor at Elmo, Orson P. Madsen, county agricultural agent, appeared before the board asking for an appropriation for purchase of strychnine for use in the extermination of prairie dogs, and twenty-nine dollars was appropriated for the purpose.

Nels Madsen, brother of Orson P. Madsen, and Oliver Madsen, both of Manti, were in the county the first of the week looking over different ranch properties with a view to purchasing. They are quite interested in a Rocker ranch, but it is a little larger than what they wanted. They expect to return again soon.

Ed Cook, eldest son of Mr. and Mrs. Ben Cook, who are making their winter home at Black Hawk, and Miss Lory Pearson, daughter of Mr. and Mrs. John G. Pearson, were married Monday by Bishop E. H. Larsen. They will make their home at Black Hawk.

Mrs. J. N. Seely of St. Anthony, Idaho, is visiting with her brother, C. H. Winters, and family.

Harry and Hugh Brandon returned last Sunday to Elv, Nev., where they both are holding down good positions in the copper mills.

Ray Jensen has closed a deal with the Mt. Pleasant bank whereby he is purchaser of the big Wilcox farm north of town.

Messrs. Olsen and Hammond, from up north somewhere, have been guests of N. J. Christensen at Ferron for a week. Olsen has been trying to buy spring calves at a very good figure, it is understood, while Hammond has been looking up and listing some farm lands and other real estate, he being in the real estate business.

He's Learning Two Great Lessons

One is the joy of self denial—the sense of real thrift. His little investment of 25 cents may mean as much to him as the first ten dollars you ever earned—or the first thousand you ever invested.

He can be made to help wonderfully in developing him into a substantial citizen. His early habit of sensibly saving will do as much as any other thing to start him on the straight road to success.

The other lesson is that of patriotism. He has learned "to do his bit." A country worth living in is a country worth fighting for. He is too young to fight, but he wants to help.

While you rejoice that he cannot go to the front, teach him to help end this war by loaning his savings to his government.

Thrift and patriotism—two great lessons at one time. All so easy. Just tell him to get a Thrift Stamp, and with it a Thrift Card. Then help him add to it until he has enough for a War Savings Stamp. With that he will get a War Savings Certificate—and his savings begin to draw interest.

If you will show him how money breeds money, he will be all the better for it. And every penny he saves and lends may help to save some other mother's boy—may go a long way toward bringing peace to all.

Encourage him to begin saving today. It's real patriotism—but it is more. It is laying the foundation for his future—and it is helping to make him what you want him to be.

spread a few days ago at Emery, the hind wheel running over his body. His injuries are considered serious.

The sparrow contest at Ferron recently was a success as far as the west side of town was concerned, the east side having to put up the dance. The total count was better than twenty-eight hundred, a good many people missing the count by being too late and the judge ruling them out. The count was made in the auditorium, where everybody present had a very good time, dancing and so on, until midnight.

Mr. and Mrs. Ed Cook, who have been at Orangeville for some time, have returned to their home on the reservation, where they are getting along nicely.

Miss Alice Davis is at Orangeville to see her friends and have a good time before she returns to Sunnyside.

Two of Orangeville's most popular young ladies, Misses Alta Lake and Victoria Pearson, made a flying trip over to Price for the purpose of having their pictures taken, but laughingly declare they made a failure of the job.

Mrs. Ernest Reid, whose health has been poor, has gone to Price to the hospital from Orangeville. Also Mrs. Will Fall, Mrs. Arch Huntington and Mrs. Frank Woodward—all to be operated on.

Mr. and Mrs. G. M. Burr have just returned to Emery from an extended visit in Beaver and Utah counties.

Ray Cowley and family, Mr. and Mrs. Carl Alger and Misses Malinda Olsen and May Mathis, all of Ferron, were Sunday visitors at Cleveland.

Lars P. Larson, another of Cleveland's prosperous farmers, is the owner of a new car, purchased recently. M. L. Snow is also the owner of a car.

Mrs. Lewis Larson, who gave birth to a child a short time ago at Cleveland, has been seriously sick, but is now reported to be improving.

Recently a baby boy was born at Emery to Mr. and Mrs. A. J. Broderick.

Around the County.

V. O. Majors, son of Mr. and Mrs. H. J. Majors, and Miss Perl Lott, daughter of Mr. and Mrs. John Lott, both of Huntington, secured license to wed yesterday afternoon, and then tied themselves for Huntington, where the ceremony was performed.

Mr. and Mrs. Leo Tidwell are visiting with the latter's parents, Mr. and Mrs. Beaman Oviatt, at Elmo.

C. K. Pappas, from one of the coal camps, was in Ferron the latter part of last week and bought up quite a lot of ranch cattle, paying a

WAR SAVINGS STAMPS

Thrift Stamps cost 25 cents each and draw no interest. You can buy them from your letter carrier, either city or rural route, at the post office or your bank. You will be given a card to place them on. This costs nothing. There are spaces for 10 Thrift Stamps on this card. When your card is full, take it to your post office or bank any time with a few cents additional and your card will be exchanged for an interest-bearing War Savings Certificate worth \$5 on Jan. 1, 1922.

This gives you 4 per cent interest compounded quarterly. You can buy 30 War Savings Certificates at one time. They will cost you \$2.50, and their face value at the time of redemption, January 1, 1922, will be \$3.00.

War Savings Certificates may be converted into cash at the post office where issued if you need the money. You will get interest, too, at about 2 per cent.

The name and address of the owner will be placed on each Certificate at the time it is issued. War Savings Certificates may be registered at any post office of the First, Second or Third Class.

HAM AND EGGS ON BILL OF FARE AGAIN

FIFTY-FIFTY ORDER ON FLOUR GOES INTO EFFECT.

National and State Food Administrations Give the Reasons For Regulations Which Went Into Effect Throughout Utah Last Monday—"We Must Feed Our Boys," Slogan.

Ham and eggs for breakfast will be possible again, beginning last Monday morning, the mealtime feature of the breakfast meal having been removed, according to an announcement made Saturday night by W. W. Armstrong, state food administrator. The wheatless breakfast will be observed as in the past. Pork may now be served Saturdays and every other day with the exception of Tuesday, which is to be beefless and porkless. There is no longer any strictly meatless day, as lamb and mutton may be served at all times. The state food administration even urges the eating of mutton, as there is a surplus in Utah, and consumption of this meat cuts down the inroads on other meats and on wheat products.

Fifty-Fifty Ruling.

Two wheatless days will still be retained each week, and every effort will be made to decrease wheat consumption. The "fifty-fifty" wheat ruling also went into effect last Monday. This means that with every pound of white flour purchased, the buyer must also buy and take at least the same amount, pound for pound, of bran, shorts, middlings, corn flour, corn meal, edible corn starch, hominy, corn grits, barley flour, rolled oats, oatmeal, rice, rice flour, buckwheat flour, potato flour, sweet potato flour, milo flour, kafir flour, kafir meal, festeria flour, festeria meal, soy bean meal, peanut meal or dry beans. Four pounds potatoes may be sold as the equivalent of one pound of the substitutes. Whole wheat flour and Graham flour containing not less than 25 per cent of bran and shorts may be sold six pounds of flour to four of substitutes.

Hoover's Statement.

"The allies have made further and increased demands for breadstuffs, these enlarged demands being caused to some degree by shortage in arrivals from Argentina. It is, therefore, necessary for the food administration to urge a still further reduction in the consumption of bread and breadstuffs generally if we are to meet our export necessities. "Experience shows that the consumption of breadstuffs is intimately associated with the consumption of meat. For various reasons our supplies of meat for the next two or three months are considerably enlarged and we can supply the allies with all the meat products which transportation facilities render possible and at the same time somewhat increase our consumption. "In these circumstances the food administration considers it wise to relax the voluntary restrictions on meat consumption to some extent with a view of further decreasing bread consumption."

Violators Must Beware.

Difficulty in obtaining substitutes for wheat flour will not interfere with the operation of the new ruling. Wheat flour will be sold to the extent only that the dealer can furnish substitutes. And there will be no fault-finding about enforcing the food regulations, the administrator says. Infractions should be immediately reported and they will be summarily handled.

State Food Administrator Armstrong left for Washington recently on official business. Just before leaving he said: "It is not a question of inconvenience or even of hardship. We must do these things whether we like it or not. We must feed our own boys."

Seventy-five per cent of the dye used in the United States are being produced at home.

Keep Less Hens Get More Eggs

We have some extraordinary matings of heavy winter laying S. C. White Leghorn females and high pedigreed males.

Conserve Feed

This strain gives highest production on least amount of feed. Will make money instead of eat it up. Our hens pay.

Will have some hatching eggs for sale. Write for descriptions of matings and prices of eggs. Orders looked in turn.
